

Maine Nonpoint Source Training and Resource Center Course Schedule

(Course Number to be listed on the Registration form is listed before name of training workshop)

1) Basic Erosion and Sediment Control Practices for Contractors

Session# N0429 Madison, January 22, 2004, Rivers Edge Restaurant

Session# N0431 Livermore Falls, February 10, 2004, Livermore Falls Public Library

Session# N0432 Ellsworth, February 12, 2004, Holiday Inn

Fee: \$45

2) Advanced Erosion and Sediment Control Practices For Contractors

Session# N0430 Madison, January 28, 2004, Rivers Edge Restaurant

Session# N0433 Livermore Falls, February 24, 2004, Livermore Falls Public Library

Session# N0434 Ellsworth, February 26, 2004, Holiday Inn

Fee \$45

Description: These courses are those necessary to become certified in erosion control practices by the Department. In addition to a section on "Why erosion control is important", participants are provided with information on the proper selection, installation and maintenance of practices such as perimeter controls, mulch, vegetative stabilization, riprap, etc.

3) Continuing Education Program for Certified Contractors

Session# N0428 Bridgton, January 15, 2004, Lakes Environmental Association Headquarters

Fee: \$25

Description: This 4-hour course is a continuing education program for certified contractors to provide for their re-certification for the next two years. In addition to an update on the program, the course will cover the MPDES Construction Activity General Permit as well as information on the proper disposal and storage of stumps, demolition debris and other materials of interest to contractors.

4) Septic System Installation

Session# J0429 Portland, March 4, 2004, Holiday Inn West

Session# J0430 Ellsworth, March 10, 2004, The White Birches

Session# J0431 Brewer, March 24, 2004, Jeff's Catering

Fee: \$50

Description: This course is necessary to become certified in the installation of Septic Systems by the Department of Human Services. Participants are provided with information on the various types of system designs in addition to the proper methods of installation of each. The course also includes a discussion of the standards of the Maine Subsurface Wastewater Disposal Rules.

5) LakeSmart Landscaping for Landscape Professionals

Session# N0435 Bangor, March 9, 2004, Ramada Inn

Session# N0436 Portland, March 10, 2004, Verrillo's Convention Center

Fee : \$25

Description: This course provides information to the state's landscape professionals on the concept of LakeSmart landscaping and management. Buffer design and location; stormwater management and erosion control; access and recreational area design; as well as shorefront stabilization and housekeeping, will be topics covered in the session. Participants will be expected to explain these concepts to clients and assist them in transforming their properties to a condition that will protect lake water quality. A listing of course participants will be provided to land owners interested in LakeSmart landscaping.

6) Estimation Techniques for NPS Pollutants Controlled

Session# N0437 Augusta, March 17, 2004, Augusta Civic Center

Fee: \$45

Description: This course provides information to individuals involved in pollution prevention efforts on techniques to estimate the amount of soil material controlled as a result of the installation of Best Management Practices. These estimations are now required for projects funded under the Clean Water Act.

7) Septic System Inspections

Session# J0411 Bangor, October 23, 2003, Ramada Inn

Fee: \$45

Description: This 6-hour course is designed to provide participants the necessary information to be able to conduct a proper inspection of a subsurface sewage disposal system. Once completed, participants qualify to become certified as inspectors by the Department of Human Services.

8) LakeSmart Landscaping for Lake Protection

Session# N0439 Belgrade Lakes, June 26, 2004, North Belgrade Community Center

Session# N0440 Blue Hill, July 17, 2004, Location to be determined

Session# N0441 Auburn, July 31, 2004, Brackett Environmental Center

Session# N0442 Windham, August 7, 2004, Location to be determined

Session# N0443 Ellsworth, August 28, 2004, The White Birches

Fee: Free

Description: This course provides information to lakefront property owners and property owners who live in lake watersheds, on proper landscaping and management techniques that protect lake water quality. Buffer design and location; stormwater management and erosion control; access and recreational area design; as well as shorefront stabilization and housekeeping will be topics covered in the session.
